

Project Location:
Mansfield, MA

Project Scope:
New Construction

Building Size:
120,000 s.f.

Building Type:
Office/Industrial

This corporate headquarters and manufacturing facility won a first prize honor award in the Build Massachusetts competition sponsored by the Associated General Contractor of Massachusetts. Hub's 120,000 square foot facility is energy efficient as well as aesthetically successful. The heat generated by the production area is reclaimed and circulated throughout the building reducing overall fuel consumption. The pre-cast concrete panels, reflective glass and well-defined overhangs combine to make a clean contemporary statement satisfying the requirements for a new corporate image.
