

**Project Location:**  
Boston, MA

**Project Scope:**  
Study and Restoration

**Building Size:**  
55,000 s.f.

**Building Type:**  
Government/Restoration

CSS was selected by Commonwealth of Massachusetts Designer Selection Committee to perform specialized services for the historically significant Fiengold Library housed in the State House. The services included library staff interviews, information gathering, programming space planning, existing conditions, documentation, interior design, twenty five year projection analysis, document miniaturization analysis, handicapped accessibility, structural and MEP design. The work also included restoration procedures for the existing library, book storage consolidation recommendations, administrative offices design, lunch room, conference room and support area design.
